Subject: RE: Pend Oreille TMDL - Facilitator

Thanks for the update. I'll talk to Heather Bartlett to assess Ecology's level of interest/anxiety a bit further.

Hi Dan

Neither Judy nor Laurie is available so it looks like you will be facilitating, assuming Ecology is OK with that. I talked to Deb Robinson and she suggested Cindy Grafe or Tracy Chellis as possible facilitators. I haven't approached them yet. Let me know if you want me to explore those options.

Actually, Helen, what I was meaning to indicate is that while I am willing to go to a certain length to honor Ecology's request, neither Dean nor I are particularly convinced that a facilitator will be helpful for the kind of conversation we need to have. So I really was meaning that a "lite" approach could be fine, or if we can't find anyone whose workable internatly, I'd be inclined to go back to Ecology with a commitment that I'll actively facilitate, given that we are in several respects in the middle already. I think either Judy or Laurie could be fine. I understand that Ecology could have some concern with Laurie, so I wouldn't push that approach if they raised an objection.

Subject: Brief discussion on time lag
[nov 12 2013 ecology meeting prep.docx](#)

Draft-Deliberative

Ex. 6 - Personal Privacy

Potomac room is reserved.

Objective: Discuss new developments on time lag from Helen's perspective (also see next step "B" on the attached messaging paper) ahead of meeting between EPA-Ecology (date TBD).

FYI Jan. 23, 2014 email from Helen regarding permits being held up because of EPA's inaction on the TMDL:

Subject: RE: Pend Oreille

Helen: as discussed, below is a the list of NPDES permits in Washington which have expired (or will expire) and are on-hold until we resolve the Pend Oreille Temperature TMDL:

City of Newport (expired 4/30/13)
Town of Ione (expired 5/31/13)
Selkirk School District (expired 3/31/07) Ponderay Newsprint (expired 5/13/12)
Teck Cominco (expired 5/31/09)

Town of Metaline (expires 5/30/14)
Town of Metaline Falls (expires 5/31/15)

Thanks Jim

I know that BPA provided a significant amount of money for mitigation to the

Tribe a couple years ago. Perhaps this is the part of the work that was funded.

Subject: Pend Oreille

Dave/Helen: thanks for our meeting this morning. Attached is a copy of the ACOE News Release from April 2013 which describes a water temperature study which the Kalispel Tribe and the ACOE are conducting at Albeni Falls Dam. I wasn't sure if EPA was aware of this study or results and any implications for the Pend Oreille River Temperature TMDL. Apparently, there is also an MOU between the Kalispel Tribe, the ACOE, BuRec and BPA which is referenced at the bottom of this news release.

Nov. 12, 2013 email to R10:

DRAFT-DELIBERATIVE* ATTORNEY-CLIENT PRIVILEGE

As follow-up to our discussion on November 6, attached please find the "messaging for meeting with Washington Department of Ecology" revised to reflect discussion we had on that day. We understand these would be EPA messaging points or talking points, but not for distribution to Ecology.

Below is more context for the messaging paper attached:

- Item IV A ends with an optional sentence to add some detail if we wish. We reflect that

Ex. 5 - Deliberative

- **Ex. 5 - Deliberative**
- For item V: Interested in the Region's thoughts on when and how best to broach these topics with the state.

- **Ex. 5 - Deliberative**

- Also, let's discuss (e.g., Nov. 20) whether the next steps are for our own use or part of the initial messaging for the state.

If you would like to discuss any of the above or the attached, feel free to contact me.

Best,
Sarah
